

In the state of Oregon, you can find the Pfizer-BioNTech vaccine, which is recommended for people 16 years and older. This one is given in two doses with 21-days between vaccination.

Also available are the Moderna and Janssen from Johnson & Johnson vaccines; only people over 18 years of age can be vaccinated with these. The Moderna vaccine is given in two doses with 28 days between vaccines, while the Janssen from Johnson & Johnson is given in a single dose.

You'll be fully vaccinated two weeks after the second dose of the vaccine or two weeks after the single dose of the Janssen vaccine.
